2. In regard to subject's registration under Section 20 of the Internal Security Act of 1950, this Agency has never made a written determination that such registration would not be in the interests of national security. 3. Your request for authorization to disseminate certain information obtained from this Agency compels us to suggest deletion of certain facts. We believe it would tend to compromise some of our operations if [REDACTED] as enumerated in paragraphs 3 and 4 of our letter of 19 June 1950, were made known at this time, even to the Criminal Division of the Department of Justice or the Immigration and Naturalization Service. Consequently, we have prepared an attachment which may be disseminated to the above offices without impairing this Agency's activities.

4. This Agency appreciates your offer to protect the source of the information regarding [REDACTED] and our desire for such protection also extends to the attachment.
